5. Appendices.....	7

1. Summary

Not what I had imagined delivering, but alas I have to try. Having experienced much joy, stress and some emergencies this is what I managed during this resit. I don't expect to manage a pass grade but I want the reciever to know I've tried at least.

Attaching my early design in Adobe XD and a github link to the page I have been working on.

Trying to utilize Chat GPT as a means to save some time was highly educational, what an amazing tool. Adding acknowledgment to Chat GPT and siting as a rescourse to highlight that I have tried using this tool as I see it being a handy experience in the future.

Appreciate all feedback that can be given.

2. Body

2.1. Introduction

2.2. Main section of report

2.3. Conclusion

3. References

Chat GPT-3.5

4. Acknowledgements

Chat GPT-3.5
